

Priya Desai

Staff UX Designer

Tallinn, Estonia | priya.desai@example.com | +372 555 1234

SUMMARY

Staff UX Designer with 14 years of experience shaping user-centered products for fintech and e-commerce clients in the consultancy space. Proven ability to lead redesigns, build design systems, and drive measurable improvements in task completion, support load, and NPS.

TECHNICAL SKILLS

- User research
- Wireframing & prototyping (Figma, Sketch)
- Usability testing
- Interaction design
- Design systems
- HTML/CSS
- Basic JavaScript
- Stakeholder facilitation
- Accessibility (WCAG 2.1 AA)
- Workshop facilitation

EXPERIENCE

UX Designer - UX Consultancy Estonia

2012 - 2017

Tallinn, Estonia

- Conducted ethnographic interviews and surveys for banking clients, delivering persona packs that increased feature adoption by 18%.
- Created low-fi wireframes and clickable prototypes in Sketch, reducing design iteration cycles by 25%.
- Ran moderated usability tests (n=12 per sprint) and presented actionable reports to product owners.

Senior UX Designer - UX Consultancy Estonia

2017 - 2022

Tallinn, Estonia

- Led the end-to-end redesign of a fintech startup's client portal, boosting task completion rate from 68% to 90% (-22% error rate) and cutting monthly support tickets by 15%.
- Introduced a component-based design system in Figma that was adopted across three internal product teams, decreasing UI development effort by ~30%.
- Mentored four junior designers, establishing a critique culture that raised internal design quality scores from 3.2 to 4.1/5.

Staff UX Designer - NordDesign

2022 - Present

Tallinn, Estonia

- Directed a cross-functional team to redesign an e-commerce checkout flow, resulting in a 12% uplift in conversion and a 0.8-point increase in NPS for the client.
- Established a reusable design-system library (Figma + Storybook) that now serves as the foundation for all new NordDesign projects, saving an estimated 450 hours of design work annually.
- Facilitated quarterly design-thinking workshops with C-suite stakeholders, aligning product roadmaps with user needs and securing a 20% increase in stakeholder satisfaction scores.
