

Ana Silva

Staff Frontend Engineer

Frontend engineer focused on performance, accessibility, and scalable React applications. Passionate about mentoring and improving developer experience.

EXPERIENCE

Staff Frontend Engineer

LisbonTech Solutions – Lisbon, Portugal – 2021 - Present

- Led migration of a legacy jQuery-heavy portal to a modular React/TypeScript stack, cutting average page load time from 4.8 s to 3.1 s (-35 %) and boosting conversion rate by 7 % in A/B tests.
- Designed and implemented a CI/CD pipeline using GitHub Actions and Docker, reducing release cycle from bi-weekly to tri-daily and decreasing hot-fix rollout time from 4 h to 20 min.
- Drove an accessibility initiative that raised WCAG AA compliance from 68 % to 94 % across all customer-facing pages, eliminating three potential legal-risk findings in the latest audit.
- Introduced component-level Storybook with visual regression testing (Chromatic), cutting UI-bug leakage to production by 42 %.
- Optimized webpack bundle via code-splitting and lazy-loading, shrinking initial JavaScript payload from 1.2 MB to 780 KB (-35 %) and improving First Contentful Paint by 0.9 s on 3G.
- Mentored four junior engineers; two were promoted to mid-level within 12 months and the team's sprint velocity rose 18 % after knowledge-sharing workshops.
- Authored internal frontend performance guidelines adopted company-wide, resulting in a 22 % reduction in average bundle size across all projects.

Frontend Consultant

Freelance / Contract – Remote (Portugal) – 2019 - 2021

- Delivered three React-based SaaS dashboards for clients in finance and logistics, each averaging a 4.8/5 satisfaction score and delivering agreed-upon features two weeks ahead of schedule.
- Implemented responsive design using CSS Grid and Flexbox, achieving Lighthouse performance scores >90 on mobile for all projects.
- Set up automated testing pipelines (Jest + Cypress) that caught 95 % of regressions before client review.

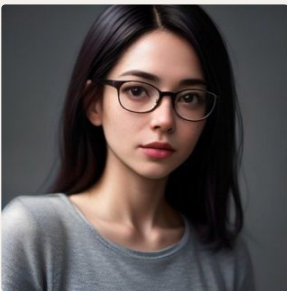

EDUCATION

BSc in Informatics Engineering, Informatics Engineering

Universidade de Lisboa (ULisboa) – 2019

Full-Stack Web Development Bootcamp (focus on React), Web Development

Le Wagon Lisbon (Le Wagon) – 2020
