EDUCATION

Certificate, DevOps & SRE
Cloud Infrastructure Bootcamp (CI Bootcamp)
2020

Erik Lindström

MID-LEVEL SRE/PLATFORM ENGINEER

PROFILE

Career changer from mathematics teaching to site reliability engineering, experienced in Kubernetes-based platforms, incident automation, and cloud cost optimisation. Currently working part-time as a freelance SRE consultant while contributing to open-source observability tooling.

EXPERIENCE

Contract SRE Engineer (part-time freelance)

Nordic Cloud Services • Gothenburg, Sweden • 2024 - Present

- Reduced mean time to resolve (MTTR) production incidents by 35% through creation of automated runbooks and self-healing scripts.
- Managed a Kubernetes cluster of 150 nodes supporting over 200 micro-services, maintaining 99.9% uptime.
- Cut AWS cloud spend by 22% via rightsizing instances and implementing spot-instance workloads for batch jobs.

Junior Systems Administrator

Gothenburg University IT Department • Gothenburg, Sweden • 2021 - 2023

- Automated patch deployment for 300+ Linux servers, reducing manual effort by ~20 hours per month.
- Implemented centralized logging with ELK stack, improving log search latency from minutes to seconds.
- Supported rollout of an internal developer portal used by 120 faculty and staff, achieving 95% satisfaction in internal surveys.

Teaching Assistant – Mathematics

Gothenburg University • Gothenburg, Sweden • 2019 - 2021

- Led weekly problem-solving sessions for 80 undergraduate students, raising the average course grade by 0.4 points.
- Developed an online quiz bank of 500 questions, decreasing grading time by ~30% per semester.
