

# Jana Novak

Backend Engineer

Prague, Czech Republic   jana.novak@email.com   +420 777 123 456

---

## PROFILE

Mid-level backend engineer with solid experience in Java-based microservices, cloud platforms, and API performance optimisation.

---

## EXPERIENCE

### Backend Engineer, Česká spořitelna

2022 - Present

Prague, Czech Republic

- Reduced average API latency by 35% through introduction of a Redis caching layer, supporting a steady load of 2 million requests per day.
- Led the migration of a legacy monolith to a container-based micro-service architecture on Kubernetes, cutting deployment time from 4 hours to 30 minutes.
- Designed and implemented a GitHub Actions CI/CD pipeline that lowered release-failure rate by 20% and increased deployment frequency from weekly to twice-weekly.

### Software Engineer Intern, Avast

2021 - 2021

Prague, Czech Republic

- Built an internal log-processing tool in Python that parsed 500k entries per day, improving security-alert response time by 15%.
- Wrote unit tests achieving 92% coverage for a new authentication micro-service, reducing post-release bugs by 18%.

### Web Developer, Freelance

2020 - 2021

Remote

- Delivered 10+ e-commerce sites using PHP/Laravel, raising average client conversion rate by 12%.
- Managed full project lifecycle for 3-month contracts, maintaining 95% on-time delivery across all engagements.

---

## EDUCATION

### BSc Computer Science in Computer Science

2021

Czech Technical University in Prague (ČVUT) (ČVUT)

---

## SKILLS

Java · Spring Boot · PostgreSQL · Redis · Docker · Kubernetes · AWS · REST · GraphQL · Git · JUnit

---

## LANGUAGES

Czech (native) · English (fluent) · German (basic)
