

Olena Shevchenko

Mid-level Game Developer

Krakow, Poland | olena.shevchenko@example.com | +48 123 456 789

SUMMARY

Passionate game developer with experience in Unity and Unreal, focused on performance optimization and procedural content generation.

TECHNICAL SKILLS

- C++
- C#
- Unity
- Unreal Engine
- Shader Programming (HLSL/GLSL)
- Physics Simulation
- Git
- Agile/Scrum
- Photon Fusion
- Procedural Level Design

EXPERIENCE

Intern - GameHub (Remote) 2021 - 2021

Remote

- Assisted in debugging and QA for a mobile puzzle game, logging and reproducing over 120 issues.
- Created simple shader effects in Unity that improved visual feedback for power-ups.

Junior Game Developer - PixelForge Studios 2021 - 2022

Krakow, Poland

- Developed core gameplay mechanics for a 2D platformer using C# in Unity, contributing to 3 released chapters.
- Implemented a save-system that reduced load times by 40% through binary serialization.

Mid-level Game Developer - PixelForge Studios 2023 - Present

Krakow, Poland

- Optimized the rendering pipeline, raising average FPS from 45 to 62 on mid-tier hardware for a side-scroller, which lifted player retention by 18%.
- Designed a procedural level generation algorithm that cut manual design effort by 30% and enabled three DLC packs to ship two weeks ahead of schedule.
- Led a team of five to integrate online multiplayer via Photon Fusion, supporting up to 50 concurrent players with sub-30ms latency.

EDUCATION

None, Game Development

Self-taught via online courses (Coursera, Udemy, Unity Learn)
(Self-taught), 2020

Certificate, Game Programming & C++

GameDev Bootcamp (Bootcamp), 2020
