LEAD DATA ANALYST

PROFILE

Lead Data Analyst with 13 years of experience delivering analytics solutions in health-tech. Promoted three times internally at the same employer, turning raw clinical data into actionable insights that improve patient outcomes and reduce costs.

EXPERIENCE

Lead Data Analyst

MedTech Solutions • Buenos Aires, Argentina • 2021 - Present

- Designed and deployed a predictive churn model for a tele-health platform that lowered patient dropout by 18 %, translating to an estimated \$1.2 M annual saving.
- Automated end-to-end ETL pipelines using Airflow and Spark, cutting daily data-preparation time from 6 hours to 20 minutes and enabling real-time dashboards for 150+ clinicians.
- Led a cross-functional team of 5 engineers and clinicians to launch a personalized treatment-recommendation engine; post-launch engagement rose 22 % and Net Promoter Score increased by 9 points.
- Mentored three junior analysts; all were promoted to senior roles within 18 months.

Senior Data Analyst

MedTech Solutions • Buenos Aires, Argentina • 2018 - 2021

- Built a cohort-based risk-scoring system for diabetic patients that improved early-intervention rates by 15 %.
- Created a self-service analytics portal in Tableau that reduced ad-hoc request turnaround from 3 days to under 4 hours, serving 80+ business users.

Data Analyst

MedTech Solutions • Buenos Aires, Argentina • 2015 - 2018

- Performed survival analysis on post-operative recovery data, identifying two key predictors that reduced average hospital stay by 0.8 days.
- Developed monthly KPI reports for the C-suite, cutting reporting effort by 40 % through template automation.

Junior Data Analyst

MedTech Solutions • Buenos Aires, Argentina • 2013 - 2015

- Cleaned and merged disparate EMR and claims datasets, establishing a unified data warehouse used by 12 downstream teams.
- Supported the rollout of a new patient-feedback survey, achieving a 70 % response rate within the first quarter.
