SKILLS

AWS (EC2, S3, RDS, Lambda, EKS)
Azure (App Service, SQL DB, Functions, AKS)
Terraform
Kubernetes
Docker
Python (FastAPI, Django)
Node.js (Express)
React
PostgreSQL
MongoDB
Redis
GraphQL
REST API design
CI/CD (GitHub Actions, GitLab CI)
Observability (Prometheus, Grafana, ELK)
Security best practices (IAM, VPC, encryption)
Agile/Scrum
Technical documentation
Stakeholder communication

LANGUAGES

Dutch (native)
English (professional working proficiency)
Hindi (conversational)

EDUCATION

B.Sc. in Computer Science and Engineering, Computer Science
Instituto Superior Técnico (IST)
2020

Jan Kowalski

MID-LEVEL SOLUTIONS ARCHITECT

PROFILE

Solutions architect with 5 years of experience designing scalable cloud-native platforms for edtech products. Proven contractor track record delivering end-to-end architectures on AWS and Azure, integrating micro-services, data pipelines, and CI/CD pipelines for fast-moving startup environments.

EXPERIENCE

Contract Solutions Architect

Learnify Studios • Remote (client in Bangalore) • 2024 - Present

- Designed a multi-tenant SaaS architecture on AWS serving 150k+ monthly active learners, reducing latency by 35% through CloudFront edge caching and RDS read replicas.
- Led migration of monolithic Node.js backend to a micro-service ecosystem using EKS, cutting deployment time from 45 minutes to 8 minutes via GitHub Actions pipelines.
- Authored infrastructure-as-code Terraform modules reused across three edtech products, saving an estimated 600 engineering hours per year.

Contract Cloud Architect

SkillBridge • Remote (client in Pune) • 2023 - 2024

- Architected a data lake on Azure Data Lake Storage Gen2 supporting real-time analytics for course completion metrics, enabling BI dashboards with 5-second refresh.
- Implemented CI/CD workflows using Azure DevOps, achieving 98% successful build rate and reducing release failures by 70%.
- Conducted security hardening workshops, resulting in compliance with ISO 27001 controls for customer data protection.

Associate Solutions Architect

EduNova • Remote (client in Hyderabad) • 2022 - 2023

- Delivered a serverless API gateway (AWS Lambda + API Gateway) handling 2 million requests/day for interactive quiz engine, cutting compute costs by 40%.
- Integrated third-party payment gateway (Stripe) with PCI-DSS compliance, enabling subscription revenue growth of 22% QoQ.
- Produced detailed architecture decision records (ADRs) and runbooks adopted as standard by the engineering team.

Junior Cloud Engineer (Contract)

CodeCraft Academy • Remote (client in Chennai) • 2021 - 2022

- Supported migration of legacy PHP learning portal to Docker-based environment on Azure App Service, improving uptime from 92% to 99.9%.
- Automated backup and disaster recovery scripts using Azure Automation, reducing RTO from 4 hours to 30 minutes.
- Participated in daily stand-ups and sprint planning as embedded contractor, contributing to two major feature releases per quarter.
