

Leila Ben Cherif

Lead Site Reliability Engineer

Site reliability professional with 11 years of experience designing and operating large-scale, highly available systems. Returned to the workforce after a three-year gap for family care and now works in IT consultancy delivering SRE transformations for clients across Europe.

EXPERIENCE

Lead Site Reliability Engineer

NexaTech Consulting – Paris, France – 2020 - Present

- Reduced mean time to recovery (MTTR) by 42 % across client platforms by redesigning run-book automation - saved ≈ €180 k/yr
- Led migration of 28 legacy services to Kubernetes, cutting infrastructure costs by 35 % (≈ €250 k/yr)
- Built an automated patching pipeline that decreased manual patching effort by 260 hrs/yr
- Mentored four junior SREs; two promoted to SRE II within 12 months
- Implemented centralized logging that improved incident detection time from 45 min to 8 min

Freelance Site Reliability Engineer

FreeLance SRE Contractor – Remote (France) – 2017 - 2020

- Provided on-call support and performance tuning for three mid-size SaaS products
- Automated deployment pipelines using Jenkins and Helm, cutting release cycle from 2 weeks to 2 days
- Conducted quarterly chaos-engineering exercises that uncovered and fixed three critical failure modes

Not employed

Career Gap (Family Care) – Paris, France – 2014 - 2017

- Took a planned three-year hiatus to provide full-time care for an aging parent; kept technical skills current via online courses and open-source contributions

Junior Systems Administrator

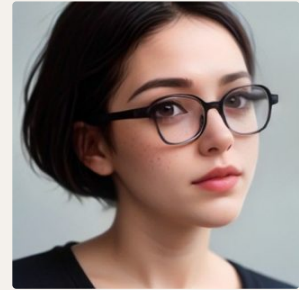

EuroSys Solutions – Lyon, France – 2012 - 2014

- Managed Windows and Linux server fleet of 150+ machines
- Implemented backup solution using Veeam, reducing RPO from 24 h to 4 h
- Automated routine patching with PowerShell scripts, saving ~10 hrs/week

EDUCATION

Vocational Qualification in System Administration, IT Infrastructure

Institut de Formation Technologique (IFT) – Paris (IFT Paris) – 2012
