## SENIOR QA ENGINEER

### PROFILE

Career changer from primary school teaching to senior QA engineer in govtech. Leverages strong communication skills from teaching to drive quality advocacy and cross-functional collaboration.

### EXPERIENCE

#### Primary School Teacher

Scuola Primaria Verdi • Milan, Italy • 2015 - 2018

- Designed and delivered lesson plans for classes of 30+ students aged 6-10.
- Implemented reading-buddy program that lifted average literacy scores by 12% within one academic year.
- Coordinated parent-teacher meetings and produced progress reports for 120 families.

#### QA Engineer

GovTech Italia • Milan, Italy • 2018 - 2020

- Built a Selenium-Grid regression suite using Docker, cutting test execution time by 40%.
- Increased automated test coverage from 55% to 85% for the citizen services portal.
- Authored detailed test plans and traceability matrices for GDPR-compliant features.

#### QA Lead

GovTech Italia • Milan, Italy • 2020 - 2023

- Led a team of four QA engineers; instituted peer-review of test cases that reduced defect leakage by 30%.
- Achieved zero critical bugs in production for eight consecutive months (Jan-Aug 2022).
- Introduced JMeter performance testing, decreasing average API response time from 420ms to 330ms.

#### Senior QA Engineer

GovTech Italia • Milan, Italy • 2023 - Present

- Designed and maintained an API validation pipeline (Postman + Newman) integrated into GitLab CI, catching ~150 defects per release.
- Mentored two junior QA engineers, both promoted to QA Engineer within 12 months.
- Advocated for shift-left testing, resulting in 20% fewer defects found during system-test phase.
- Improved deployment frequency from bi-weekly to weekly by stabilizing the automated test suite.
