

Felix Schneider

Intern Security Engineer

Recent computer-science graduate from UPM seeking to apply foundational security knowledge in an insurance-sector internship.

EXPERIENCE

Intern Security Engineer

Folksam – Stockholm, Sweden – 2026 - Present

- Automated daily log-collection scripts that cut manual review effort by ~30% during a two-week pilot.
- Assisted the SOC team in tuning Nessus policies, resulting in a 12% reduction of false-positive findings on internal web assets.
- Co-facilitated a quarterly internal phishing simulation; participant click-through rate dropped from 22% to 15% after the campaign.
- Documented remediation steps for 15 low-severity configuration issues identified in routine vulnerability scans.
- Produced a one-page cheat-sheet on secure password practices distributed to 200+ non-technical staff.

EDUCATION

B.Sc. in Computer Science (Cybersecurity focus), Computer Science

Universidad Politécnica de Madrid (UPM) (UPM) – 2025
