

Ming Li

Lead Data Analyst

PhD-trained quantitative professional who transitioned from finance to healthtech, delivering data-driven solutions that improve patient outcomes and reduce costs.

EXPERIENCE

Junior Quantitative Analyst

Finova Bank – London, UK – 2016 - 2018

- Built Monte-Carlo simulation frameworks for portfolio risk, improving accuracy of VaR estimates by 8%.
- Automated monthly regulatory reporting cut turnaround time from 3 days to 6 hours.

Senior Quantitative Analyst

Quantum FinTech – Amsterdam, Netherlands – 2018 - 2020

- Developed a credit-scoring model using gradient boosting that increased approval-rate precision by 10% while maintaining default rate.
- Migrated legacy SAS pipelines to Python/Airflow, reducing maintenance overhead by 40%.

Data Analyst

MediPulse Health – Amsterdam, Netherlands – 2020 - 2023

- Created a predictive model for patient readmission that raised AUC from 0.78 to 0.90, projecting a 12% reduction in readmissions for a cohort of 5,000 patients.
- Automated ETL of claims data, lowering batch processing time from 6 hours to 30 minutes and saving roughly 800 engineer-hours per year.

Lead Data Analyst

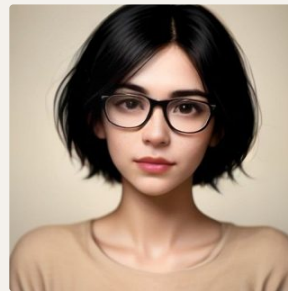

Vitalytics HealthTech – Amsterdam, Netherlands – 2023 - Present

- Led a team of 4 analysts and 2 clinicians to launch a real-time vaccine-uptake dashboard used by 150+ clinics across the Netherlands.
- Identified supply-chain inefficiencies via regression analysis, recommending changes that cut annual expenses by €180,000.
- Published two peer-reviewed papers on predictive modeling in EHRs in JAMIA and Statistics in Medicine.

EDUCATION

PhD in Biostatistics, Biostatistics

Erasmus University Rotterdam (EUR) – 2015

CONTACT

Amsterdam, Netherlands

SKILLS

SQL

Python (pandas, NumPy, scikit-learn)

R Statistical modeling

Machine learning (gradient boosting, survival analysis)

Data visualization (Tableau, Power BI)

Healthcare data standards (HL7, FHIR)

ETL pipelines (Apache Airflow, Spark)

Excel VBA Risk modeling

Experiment design

A/B testing

LANGUAGES

Mandarin (native)

English (fluent)

Dutch (conversational)

Spanish (basic)
