

Lina Rossi

JUNIOR UX DESIGNER

PROFILE

UX designer with a focus on research-driven interface improvements for fintech and health-tech products. Passionate about translating user insights into usable flows and measurable impact.

EXPERIENCE

Junior UX Designer

Finova Technologies • Milan, Italy • 2023 - Present

- Led end-to-end redesign of the mobile onboarding flow, increasing completion rate from 62% to 78% within three months.
- Conducted 12 remote moderated usability tests with healthcare professionals, identifying 34 pain points that informed a redesign reducing task time by 22%.
- Created and maintained a component library in Figma adopted by three product teams, cutting average design hand-off time by 30%.
- Facilitated bi-weekly design critique sessions with cross-functional participants, improving design decision speed and alignment.

UX Design Intern

Studio Grafico Roma • Rome, Italy • 2022 - 2023

- Assisted senior designers on a banking dashboard project, producing wireframes for 15 screens that were used in stakeholder presentations.
- Performed competitive analysis of five fintech apps, delivering a 10-page report that highlighted three differentiation opportunities adopted in the final design.
- Supported recruitment and scheduling of 8 usability test participants, ensuring timely data collection for iterative improvements.
