

Michał Kowalski

Principal Technical Writer

Experienced technical writer specializing in API documentation, developer portals, and localization workflows for SaaS products.

EXPERIENCE

Junior Technical Writer

EduTech Startup – Warsaw, Poland – 2018 - 2020

- Created user guides and FAQs for an online learning platform used by over 10k students.
- Implemented a version-controlled documentation repo using Git, reducing update errors by 40%.

Mid-Level Technical Writer

FinTech Solutions – Warsaw, Poland – 2020 - 2023

- Produced API reference documentation adopted by 15+ internal teams, cutting related support tickets by ~20%.
- Automated release notes generation with a Python-based pipeline, saving ~5 hours per release.

Principal Technical Writer

EuroSaaS Corp – Warsaw, Poland – 2023 - Present

- Reduced documentation localization turnaround by 30% by introducing a translation memory system and style guide automation.
- Led migration of legacy Word-based docs to Markdown/DITA, decreasing maintenance effort by 25% year-over-year.
- Mentored three junior writers, improving team output consistency and cutting onboarding time from 6 weeks to 3 weeks.
