

Lars van Dijk

Junior Mobile Engineer

Paris, France · lars.vandijk@example.com · +33 6 12 34 56 78

Junior Mobile Engineer with one year of experience building secure mobile applications for cybersecurity products. Moved from the Netherlands to France after a six-month internship.

EXPERIENCE

2025 - 2025

Mobile Developer Intern

FinTech Utrecht, Utrecht, Netherlands

- Assisted in developing a consumer-facing Android app using Kotlin and Jetpack Compose.
- Performed security-focused code reviews following OWASP Mobile guidelines.

2025 - Present

Junior Mobile Engineer

CyberSecure Products, Paris, France

- Built a secure login flow with biometric authentication and OAuth 2.0, reducing account-takeover attempts by 38 % in the first three months post-launch.
- Authored Espresso UI tests that increased automated test coverage from 28 % to 70 % within two months.
- Contributed to a quarterly threat-modeling session that uncovered a hard-coded API key, leading to a fix before the next release.

EDUCATION

2024

B.Sc. Computer Science, Computer Science

Technische Universität München (TU Munich)
